NEW

Pink Brush

WHAT MAKES IT UNIQUE?

The **PINK** is softer and more flexible than the white and red versions. Results in no change in part dimensions or features. It is best used for detailed deburring of smaller more intricate parts without breaking edges.

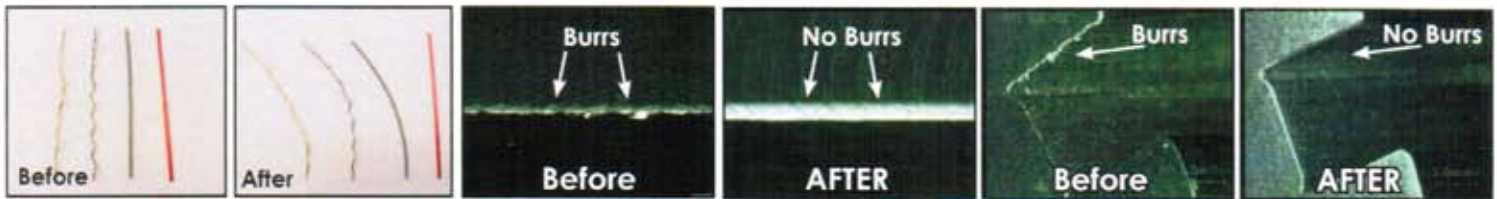

EDP Number	Part Number	Fiber Rod	Color	Brush Diameter		Brush Length		Sleeve Required for Brush	Max RPM	List Price
				mm	inch	mm	inch			
30013	A13-CB15M	A13	PINK	15	.591	50	1.969	S15M	6,000	\$163.56

PRODUCT FEATURES

- Use on machining centers, robots, custom machines and drilling machines – **EASY TO AUTOMATE.**
- Superior grinding performance due to the self-sharpening action of the cutting edge of the fine alumina fiber rod tips.
- The continuous cutting edge provides consistent grinding performance.
- Simultaneously deburr and finish edges.
- Improve surface finish in reduced cycle time!
- Ideal for fine deburring and surface finishing of a wide variety of parts and materials up to 57 Rc.

APPLICATION

- For extra fine burrs where no edge break is critical.
